

A Project Report On

“ Finding startup plans ”

Rajiv Gandhi Proudhyogiki Vishwavidyalaya, Bhopal

In partial fulfillment of the Degree of Bachelor of Engineering

in

Computer Science & Engineering

SUBMITTED BY –

Akshay Bhadauria (0501CS161012)

Deepak Rajput (0501CS161032)

Dipesh Pawar (0501CS161035)

Disant (0501CS161036)

Jitendra Khushwaha (0501CS161045)

Department Of Computer Science and Engineering

**SAGAR INSTITUTE OF RESEARCH &
TECHNOLOGY-EXCELLENCE, BHOPAL
2018-19**

SAGAR INSTITUTE OF RESEARCH & TECHNOLOGY-EXCELLENCE, BHOPAL

CERTIFICATE

This is to certify that Dipesh(0501CS161035) ,Deepak Rajput(0501CS161030),Akshay Bhadauria (0501CS161012),Disant(0501CS161036),Jitendra Khushwaha (0501CS161045) **has completed his minor project work, titled “Finding Startup Plans” as per the syllabus and has submitted satisfactory report on this project as a partial fulfillment towards the degree of BACHELOR OF ENGINEERING in COMPUTER SCIENCE & ENGINEERING**

Prof.Vivek Rawat
Project Guide

Prof. Rajdeep Singh
Head of Department

ACKNOWLEDGEMENT

We are grateful to **Dr. Rajiv Srivastava Director, SIRTE, BHOPAL** for providing all the necessary resources to carry out this Project work. We also greatly indebted to **Prof. Rajdeep Singh, Head of Department Computer Science and Engineering, SIRTE. Bhopal**, without his encouragement and constant guidance we could not have finished this project. He has been always a source of inspiration and motivator for innovative ideas during the entire span of this work.

At the outset, we would like to thank our guide and advisor, Prof.Vivek Rawat Asstt. Professor, CSE, SIRTE, Bhopal for giving us an opportunity to work on this challenging topic and providing us ample and valuable guidance throughout the project.

We would like to thank all staff members of CSE, SIRTE. and friends, for their support. We will be failing in our duty if we don't acknowledge the people behind this work to give us moral and psychological support. Our special thanks to our parents for their endless care and constant support.

□ INTRODUCTION

1. Purpose

The main objective of this project is to design dynamic , responsive **Website** and an online framework for **Finding Startup Events**

This system is allows the user to know about all startup events , it will provide all detailed idea about the New and existing Startup plans.

Scope - This system allows the users to know about all Startup events holding in their country and get notify on time by getting registered.

2. Scope

This system is allows the user to maintain their documents record for their stipend , and check their eligibility and criteria according to their caste catagories.

The annual income limit to be eligible to apply for scholarship is less than **one** lakhrupees. In case of SC/ST candidates, the family annual income should not exceed more than **two lakh** rupees

3. Goal

The goal of Event Management is to provide the capability to detect events, make sense of them and determine the appropriate control action. Event Management is therefore the basis for Operational Monitoring and Control.

Event Management should be utilized to detect and communicate operational information as well as warnings and exceptions, so that input can be provided for reporting the service achievements and quality levels provided. It may be used for automating routine activities such as backups and batch processing, or dynamic roles for balancing demand for services across multiple infrastructure items/sources to improve performance.

4. Features:

Through the system we can easily maintain the data without any loss or damage

- By using this system time consumption will be reduced.

- By using this website student's can easily know about the information of Events organising near them.
- Quick access using mobiles,Laptops etc.
- Users can take appointment on it get Registration also.

□ **GENERAL DESCRIPTION**

The Event management replace the work load for search different numbers of websites,those who need the detailed about any types of ideas about any Events then they will directly search this sites and achieving information about national and international events and get Registered.

2.1: User Manual

The system should provide help option in which how to operate the system should be explained , also hard copy of document should be given to the user in booklet form.

□ **FUNCTION REQUIREMENT**

● **Input/output**

First User enter into the web application and get detailed knowledge about all type of Events, user can easily enter into home page , learn detailed about different types of category likes Informational Event,Exceptional Events and also state wise . and user can also switched easily into all types of pages category , user can also be watch video which is directly provided by web applications and learn about different types of Events .

This site is fully responsive , user can use in any platform without facing any types of problem. User can use this site into the mobiles , laptops, ipad etc . this site will also give about knowledge about “National” as well as “International Events”.

□ **PERFORMANCE REQUIREMENTS**

This system work concurrently on multiple processor between the college hour , the system should support many user at a time .

The system should support taking information about all types of scholarship like national as well as international also.

□ **NON – FUNCTIONAL ATTRIBUTES**

- **Security**
The Authorized User Should provide password to log on to the system .he/she should be able to see the information of his/her stipend and also should changes for their records and done updation.
- **Reliability**
Due to wireless connectivity , reliability cannot be guaranteed.
- **Availability**
The system should be available at 24 hours.
- **Maintenability**
There should be a facility to add or delete or update records for each year.
- **Reusability**
The same system will be used in each year.

□ **DEVELOPMENT TOOLS**

- 1) We make our module with web designing.
- 2) Language : CSS , JavaScript , HTML .
- 3) We used Notepad++ as our editor.
- 4) We use Apache server.
- 5) Web-Browser : Mozilla , Firefox , Google Chrome , Opera Mini , Safari , IE11 , Microsoft Edge , Etc.
- 6) Framework and Libraries : Bootstrap and JQuery.

➤ **System Analysis**

- 1) Installing a system without proper planning leads to great user dissatisfaction and frequently causes the system to fail into disuse.
- 2) Lends structure to the analysis and design of information system.
- 3) A series of processes systematically undertaken to improve a business through the use of computerized information system.

● **ROLE OF SYSTEM ANALYSIS**

- 1) The analysis plays a key role in information system development project.
- 2) Must understand how to apply technology to solve business problem.
- 3) Analysis may serve as change agents who identify the organizational improvement.

□ **SYSTEM REQUIREMENTS**

On Client side

- Operating System (any)
- Web Browser(: Mozilla , Firefox , Google Chrome , Opera Mini , Safari , IE11 , Microsoft Edge)

On server side

- Web Server (Apache)
- HTML
- CSS

☐ HARDWARE REQUIREMENTS

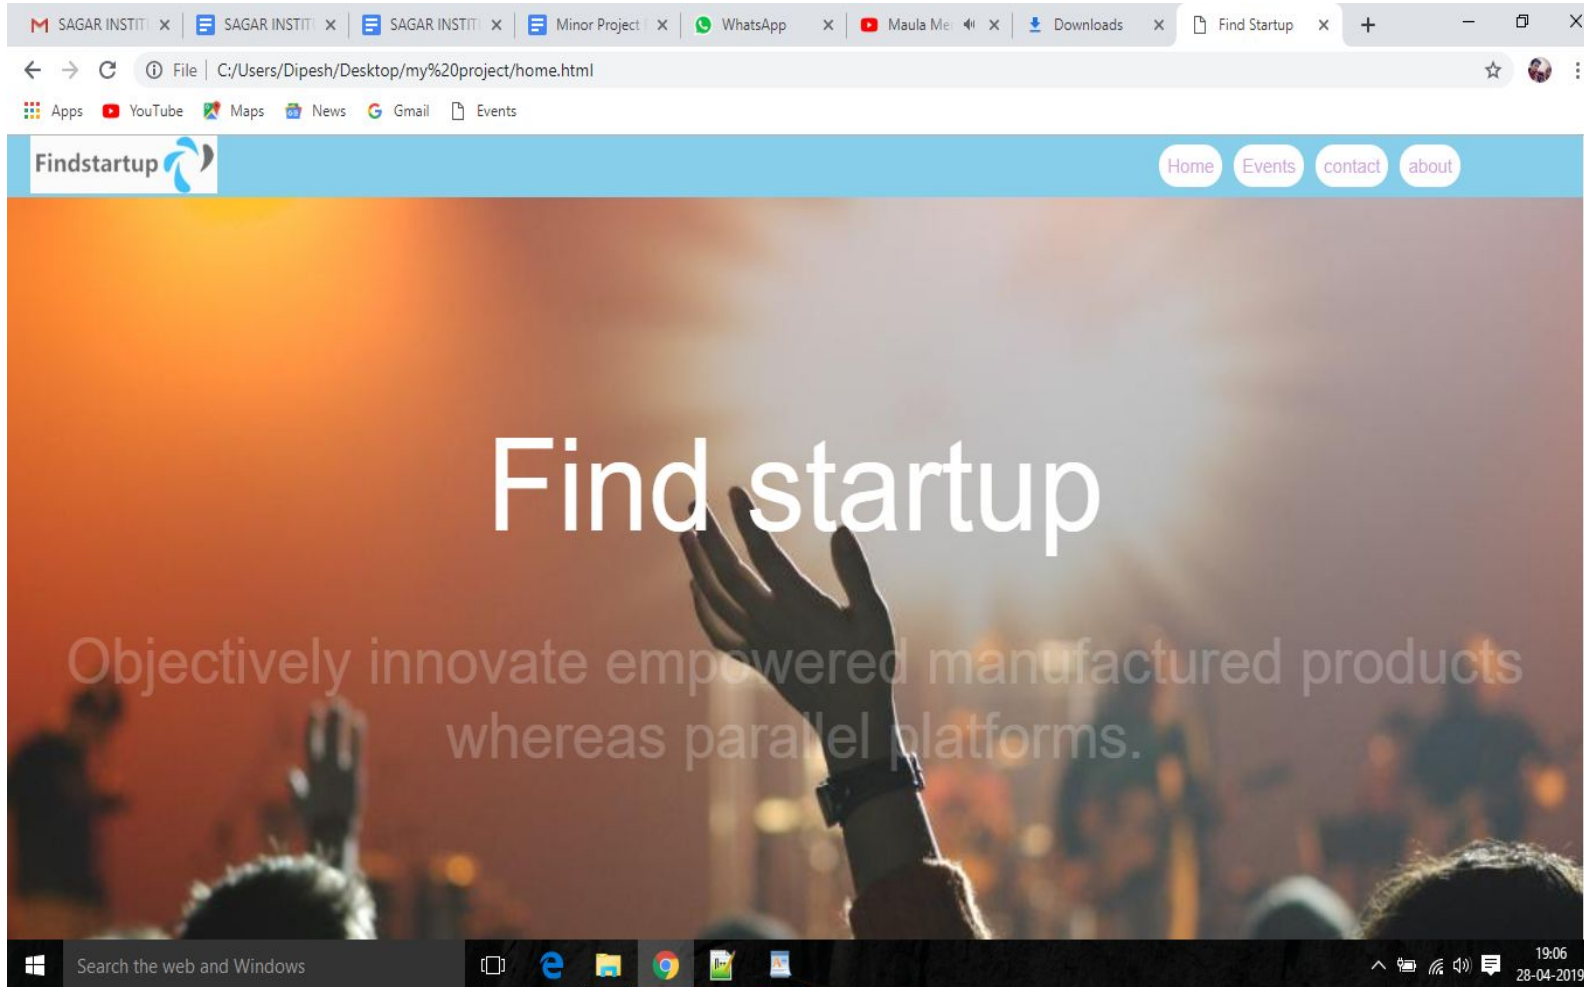

At Server Side

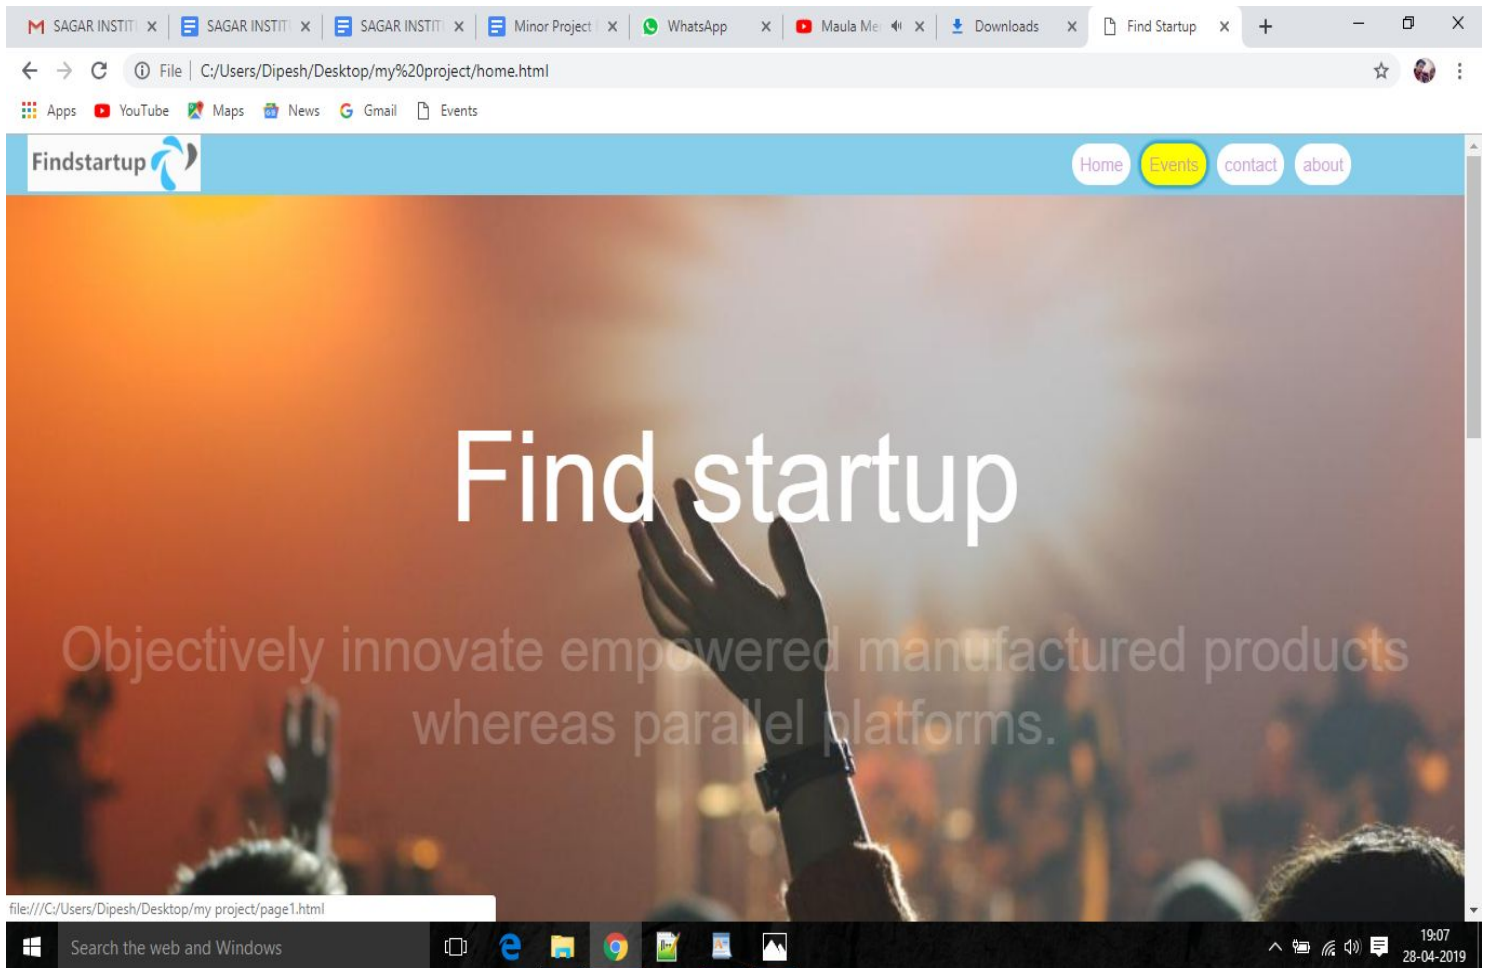

- Laptop
- Processor
- 1 GB RAM
- 120 GB HDD
- LAN or WAN

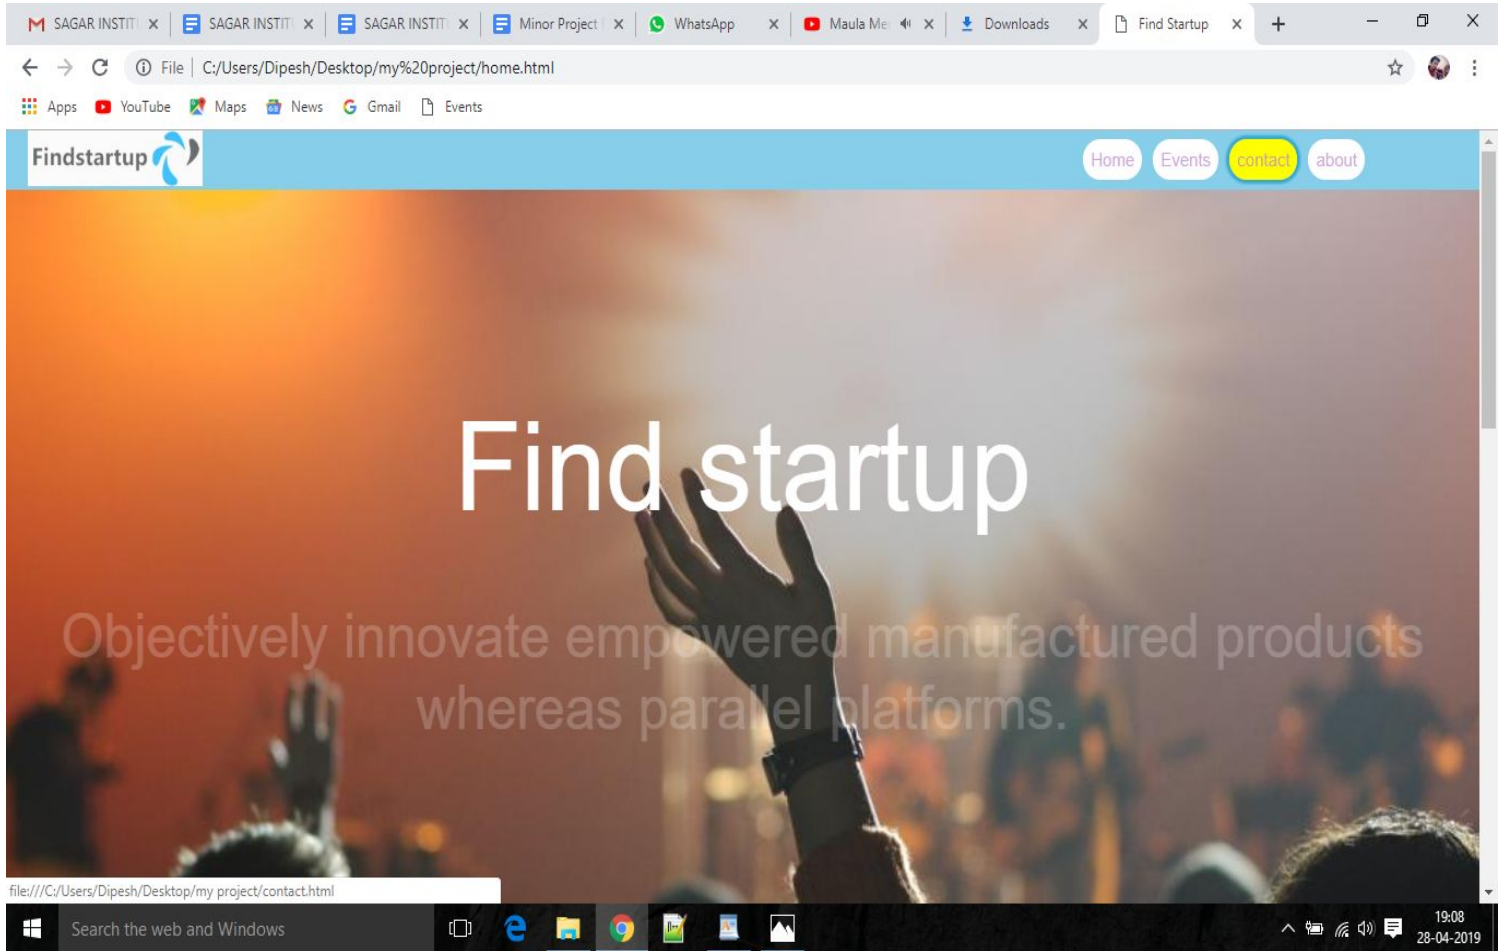

☐ FEATURIES

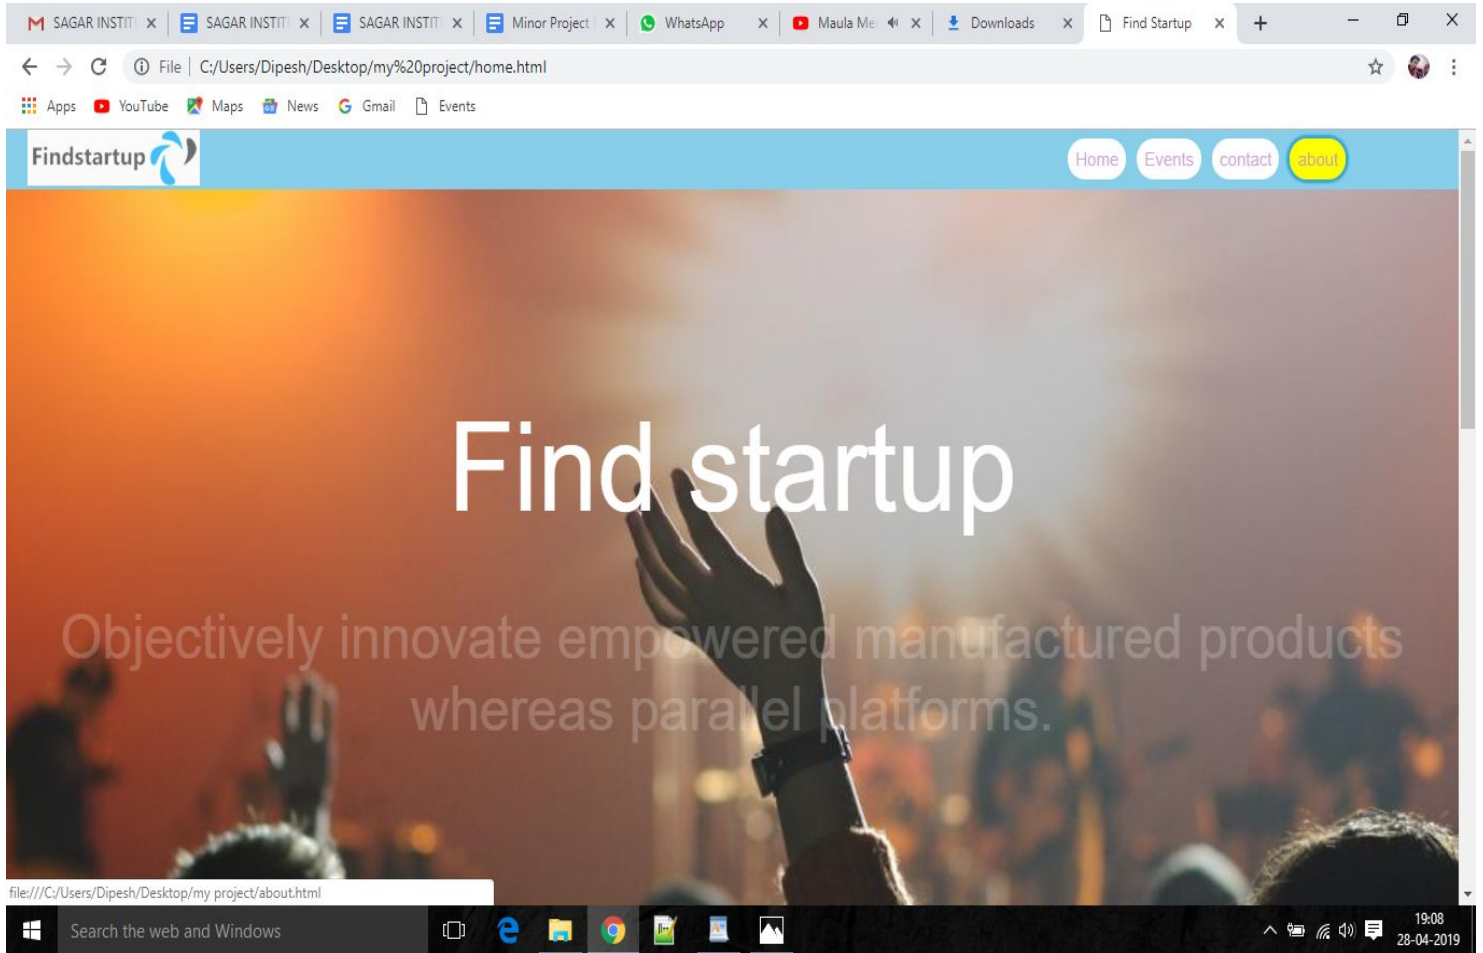

- User Friendly
- Fully Informative
- PPT , PDF , DOC , all type of file sharing support .

    <div class="about-part2">
        <h2> About Us </h2>
        <p> Startup India is a flagship initiative of the Government of India, intended to build a
strong ecosystem that is conducive for the growth of startup businesses, to drive
sustainable economic growth and generate large scale employment opportunities. The
Government through this initiative aims to empower startups to grow through innovation
and design.</br>

```

Several programs have been undertaken since the launch of the initiative on 16th of January, 2016 by Hon'ble Prime Minister, to contribute to his vision of transforming India into a country of job creators instead of job seekers. These programs have catalyzed the startup culture, with startups getting recognized through the Startup India initiative and many entrepreneurs availing the benefits of starting their own business in India.</br>

The 19-Point Startup India Action Plan envisages several incubation centres, easier patent filing, tax exemptions, ease of setting-up of business, a INR 10,000 Crore corpus fund, and a faster exit mechanism, among others.</p>

□ **FUTURE SCOPE**

Project scope is the part of **project** planning that involves determining and documenting a list of specific **project** goals, deliverables, features, functions, tasks, deadlines, and ultimately costs. In other words, it is what needs to be achieved and the work that must be done to deliver a **project**.

The scope of the project is that it can be used by any college to automate the scholarship departments . Anyone having the access to the internet can access the application and can fill the form for their criteria , its can provide many more facilities . with the help of this project many poor citizens can provide scholarship facilities and then they will be done their graduation.

□ **PRELIMINARY SCHEDULE**

The system has to be implemented with 3 month.
